CEO MESSAGE

Hello everyone,

Wow! What a blast it has been for Ascendance in 2022. This year, I woke up every day in awe and in fascination, excited for the work we were going to do. When we started Ascendance in 2015, I told my mentor that I wanted to bring the work we do to a global scale. Looking back at 2022, this was the year that laid the foundation for Ascendance's Global Outreach which we will see more of in the years to come.

Building The Future was never one person's job, and over the past year, we are happy to see the world acknowledging Ascendance's initiatives to impact students at an international level. We met young changemakers from across the world who work together with us to share their experiences in hopes to inspire their generation. Many industry specialists, VCs and C-Suite Executives from top organisations in the world put time aside to participate in Ascendance's events to cultivate the minds of the young.

This year, thanks to our main partners ET Ideas and Avery Dennison, Ascendance had the opportunity to travel across Malaysia. We met many passionate teachers as well as bright students who shared their ideas and aspirations for the future. Visiting these schools made us see why equal and equitable access to entrepreneurship education is pivotal to build the future. We were able to bring this awareness to students through our TheTeenageEntrepreneur.com online platform with hundreds of live workshops and mentorship sessions.

Collaboration is at its best is when people come together to further a cause, without seeing who gets the name. Our biggest success this year, Ascendance's Global Young Changemakers Conference with over 22,000 registered participants from 18 countries, was not possible without the time and effort of our team comprising hundreds of dedicated individuals who worked tirelessly day and night. We couldn't have asked for a better team who truly cares about impacting the world. Everyone truly played a part in building the young. From the bottom of my heart, I extend my utmost gratitude to the many teachers, government ministry officials, corporate partners and well-wishers who believe that the young can change the world.

You may be wondering, what's next? Well, our global efforts have just begun. In 2023, our Global Gamechangers Summit is bridging both corporate and entrepreneur factions with 50+ speakers from top organisations worldwide. From Ivy League Universities in the United States to social entrepreneurs in Africa, India, Europe and more, the next wave of Ascendance's growth will be global, and I invite each of you to join us on this adventure.

2022 reminded me of my vision when I was a 14-year-old student. I now see the reality that has transpired from my speech at a social business summit in the Philippines back in 2016; "When the world comes together, even the sky is not the limit". Thank you, everyone, for making this year a beautiful chapter in the history of Ascendance.

Yours sincerely, Harsha CEO of Ascendance

The Ascendance Apprenticeship is a 6-month program that provides the opportunity for youngsters aged 7 to 18 years old to further **develop their skill sets.** Upon selection after the application and interview process, students and parents voluntarily participate in this program. This is a more personalized program that enables students to **try out their passions, build sustainable careers**, **achieve holistic success** and **foster leadership.** A unique aspect of this program is apprentices are guided and mentored weekly by the Ascendance team. At the end of this 6-month period, selected few are hand-picked to move on to Phase 3 (pg 41).
